## Unleashing Executive & Organizational Potential

I appreciate your willingness to describe your experience in the executive and leadership training that I provided to you and your organization. The information will be included in a marketing booklet that I will be using to expand my global footprint. My sincere gratitude for your support.

Herb Stevenson

Please describe your experience in the space provided

Honestly, I went into the coaching process with Herb w/o really knowing what to expect. However, it turned out to be an extremely valuable and long lasting experience. While you may not notice the small steps you make from one session to the next, once you look back where you came from and where you stand at the end of the process you will be surprised how far the ride took you.

What did you find most effective from this coaching and training that supported your leadership development?

The combination of personality related development based on self-reflection and behavioral monitoring and “hands-on” work on the daily challenges of the job proved extremely fruitful. It did not only help me tremendously during the specific professional situation I was in during my coaching sessions, but it also prepared me well for the next step in my career.

How has the coaching and training led to be a more effective leader

Herb’s excellent understanding of what the specific business needs of your current position and organization are, as well as his ability to adopt to and understand the challenges of a multi-cultural organization were most valuable in helping me to develop my personality accordingly and last but not least built up trust and confidence in my own capabilities and competence.

May we cite your name and organization? If so please list it below.
